FOR SHERIFF,

We are authorized to announce JOHN T. FRANKS a candidate for sheriff of Crittenden county, subject to the action of the Republican party. He will appreciate your vote and influence.

TO THE VOTERS OF CRITTENDEN COUNTY: Having served you for the past two years as Sheriff, I take this method of expressing to you my gratitude for the confidence imposed in me. It has been the custom of the county to endorse all past Sheriffs who have asked it of the people, and feeling that my treatment of the people has been such as to merit an endorsement at your hands, I announce myself as a candidate for reelection.

I feel that my experience will enable me to serve you better in the future than in the past, and if chosen by the people, will endeavor to do so. Yours truly, A. L. CAUCE.

To The Voters of Crittenden County.

I hereby announce myself as a candidate for reelection to the office of Circuit Court Clerk subject to the action of the Republican party. I wish to return to the people of this county my heart felt thanks for the support given in the past. Whatever may be my lot in the future one of the brightest spots in my life will be the memory of what the people of Crittenden county have done for me. I have endeavored to so regulate my official conduct as to be worthy of the confidence reposed in me and the honor conferred upon me. My official life is before you. If I have discharged the duties of the office with a conscientious regard for the interest of the people, without partiality to any party or shade of political belief but treating all men exactly alike and if I have performed the work of the office properly and right I respectfully ask an endorsement at your hands. For the next term if elected, I can promise nothing more than what I have earnestly endeavored to do in the past to faithfully and impartially discharge every duty incumbent upon the office: with profound gratitude for your support.

Very Respectfully, H. A. HAYNES.

Democratic Convention.

Pursuant to the instructions of the Democratic State Central Committee, a mass meeting of the Democrats of Crittenden county is hereby called to meet in Marion on Saturday, May 14, 1892, at 2 o'clock, p. m., for the purpose of appointing delegates to the State convention to be held in Louisville, May 24, for the purpose of selecting delegates to represent the Democrats of Kentucky in the National Democratic Convention at Chicago in June.

J. W. BLUE, Ch'mn.

The President's household is not happy.

Mrs. Blaine is taking a hand in the Presidential fight. It is said in a Washington dispatch in this morning's news that she has it in for Har- rison because he refused to make her late son Walker Blaine Solicitor for the Department of State. If this is authentic, it means a very black eye for President Harrison.

We are in receipt of the State Geologist's report on the progress of the survey in Kentucky. The report shows that good work has been done by the Geologist, and that Kentucky, when the report is completed will be in shape to let the world know what is under the surface. Referring to the survey in this section Prof. Proctor says: "Mr. E. O. Ulrich had previously done the geologic field work in Caldwell and Crittenden counties, but additional field work was made necessary by observations in these and the adjoining county of Livingston." This was completed, and he is now engaged in preparing the report on these two counties for publication.

If the Democratic doctrines were ever right, they are supremely right now. "Equal rights to all and special privileges to none" is sound doctrine. Let the sunshine of a Republican government fall with its liberal rays upon the rich and poor, the high and low, the farmer, the doctor, the lawyer, the artist and the artisan alike. Give no man, nor class of men, no corporate nor company, nor any other creature, advantages that all do not enjoy. In the battle for bread, in the rush for wealth, and in the race for honors let industry and frugality, honesty and intelligence be unshaken by any law that puts the goal within easier reach of one man than another. This is democracy.

DISTRICT POLITICS.

Third Party and Prohibition Nominations for Congress.

Padeuch, Ky., May 7.—The Third Party and the Prohibitionists of the First Congressional district both held conventions here 113 delegates voted, making 62 necessary for choice, on the first ballot Dr. Singletary received 45; B. C. Keys, 38; W. W. Morris, 10; J. H. Lackey, 8. On the second ballot, Keys received 63; Singletary, 49; Dale 1.

The prohibition convention nominated Dr. J. D. Smith for Congress. The delegation was small, but there was a pretty lively tilt between E. W. Bagby, and Col. Lucien Anderson, over the adoption of the resolutions.

The delegates from Crittenden to this convention were S. B. Weldon and T. A. Minner.

On motion it was decided to leave it to the option of the candidates, how and when the nominations for the various officers should be made, who decided to leave it to the committee, and fixed the time, Saturday, May 28th.

The following resolutions were adopted: Resolved, That the thanks of the Republican committee are extended to the ex-chairman, J. C. Elder for his faithful and efficient service for the party in the last ten or twelve years, which has, to a great extent, raised us from a minority party to that of influence and power.

Resolved, That the county papers be requested to publish the minutes of the proceedings of this meeting. On motion adjourned to meet at the court house in Marion, Ky., on Saturday, May 28, 1892, at 1 o'clock.

To Increase the State Tax Rate.

A bill has been reported to the House by the Committee on Revenue and Taxation to increase the rate of taxation from 42 1/2 to 47 cents on the \$100 valuation. This increase of five cents is to be appropriated to the five cents in the general expenditure fund. It has been demonstrated that the reduction of five cents in the tax rate, two years ago, was unwise and embarrassing to the proper administration of the State government. The only contest, when the bill comes up for consideration, will doubtless be for a less increase in the rate. It is not probable that the tax rate will be increased more than five cents, although many persons doubt if the increase proposed by the bill will be sufficient to prevent a large deficit in the State Treasury at the close of the fiscal year, June 30, 1893.—Frankfort Capital.

JNO. ROBINSON'S SHOW.

The Amusement Golconda of the Period.

More than twenty years of continuous operation has characterized the career of the John Robinson show, which this season is reaching the proud culmination of its triumph. No other show in existence can display so continuous and so clear a record. From the cold waters of the Pacific to the shores of the Pacific, from the northern boundary of civilization to the southern limit of the continent, for more than twenty years has the name of John Robinson been a household word, and the coming of the always unexpected and exhilarating enterpriser that bears his name is ever greeted with a hearty welcome. From the genesis of the show until its present colossal perfection, there has not been a solitary season in which it has not led the fashions in the multiplicity and general excellence of its attractions, and now it towers above and dwarfs all contemporaneous theatrical exhibitions into comparative insignificance, and this season it presents such an assemblage of startling and marvellous attractions as to truly enable it to be designated as a vast Amusement Golconda, whose wondrous wealth of entertainment is unlimited and immeasurable. It is merely a work of supererogation to say that his circus has always been the best and biggest, always in the van, always profuse in leading and sensational features, and always fully equipped with the finest stock of horses and the most skillful and finished backback riders, gymnasts and acrobats in the profession; that his large, well ordered and well-selected menagerie contains living, vigorous specimens of all that is strange, rare and curious within the range of natural history, and that his royal Roman Hippodrome is a vivid and realistic reproduction of that of the days of imperial Caesar.

It may be said, however, that to these always prominent and desirable attractions has been added, for the current season, a feature so stupendous in magnitude, so overpowering in unprecedented grandeur and improbability, and so enormous in the expense necessary to its production, that the features mentioned, grand and multifarious as they are, can at best play but a secondary part.

The grand biblical, historical, scenic, graphic, lyric, topographical and panoramic spectacle of "Solomon, his Temple, and the Queen of Sheba" is thus added to a transcendently impressive and eminently moral and mind-elevating pageant and scene production, from the fertile brain of Mr. John Kitting, the projector and creator of "Rome under Nero," "The Fall of Babylon," "Montezuma," and "Bondage in Egypt," noted spectacles which have been annually produced under the auspices of the Order of Cincinnati, and which have become famous throughout the length and breadth of the land. To claim that "Solomon, his Temple, and the Queen of Sheba" is the masterpiece of this brilliant artist is not transcending the limits of veracity. There is not a sensual, libidinous nor lascivious scene, act or thought in the spectacle, and every thing in the entire presentation is holy, chaste and pure. The limits of a newspaper notice cannot mention in detail of the unparallel characteristics and excellencies of this gorgeous and imposing spectacle, but the reader will find exhaustive description in the bills, circulars and advertisements disseminated broadcast by the management.

The Robinson show will exhibit at Marion, Ky., Monday, May 30, 1892.

Miles Orton's show was here Thursday. The circus performance was good, but the menagerie portion of the show was a tame affair. There are a set of fakirs and gamblers with the show that are a disgrace. Numbers of parties here lost money "monkeying" with the set. The sheriff was called upon more than once to make the rascals disgorge, and in one or two instances they did hand over their ill-gotten gains.

Dr. Russell was floored of \$70 in making change for one of those sharp-shooters, but succeeded in getting his money. So long as Orton or any other show permits such barnacles to follow them around the people should steer clear of such shows.

To the Good People of Crittenden and Adjoining Counties.

We wish to say a few words. Two years ago we commenced business at Marion, and have now been in your midst long enough for you to know what kind of people we are. We will say that no other firm has paid out as much money to the farmers as we have, and we have never offered to sell you anything, but have always had the cash and paid it to you for your produce. Now we have begun the sale of flour and would most respectfully ask a share of your trade. We don't ask all but only a part, and remember, if our flour is not as good or better and as cheap or cheaper than any flour offered you we don't want you to take it, as we fully guarantee every sack and barrel, and when it is not what we represent, it don't cost you a cent, and we pay you for time and trouble of taking home and delivering. You are admonished to patronize home industry. What is home industry? Is it not home firms, or firms that pay out their cash to you? Have we not done this for two years and are we not still doing so? We say yes. We are here to stay and will continue to buy your produce or anything you have to sell, and will pay cash and the highest market prices. We want 500,000 dozen eggs at once, 500,000 chickens, 500,000 lbs of wool, and everything else you have to sell. We have got the cash ready to pay for it and don't you forget it. If at any time we mistreat you, all you have to do is to let us know and we guarantee to satisfy you. It is true our mills are not located at Marion, but that does not affect prices, and as prices are what falls, "we are in it." We offer flour at same price as others and we will pay you the same price as others for your wheat, corn, etc. As we have been in your midst for two years, paying out from thirty to forty thousand dollars per year, before we had asked for a cent of your custom for anything we sell, we can not see why we are not entitled to some of it the same as any other home industry, as when you buy our flour your money does not leave the county, but goes right back into you or your neighbor's hands for circulation. Don't take our word for it, but ask the Marion Bank if we ever send a cent away from here, but on the other hand, we are always bringing money in to pay out.

J. M. JEAN & SONS.

Have you been to see Schwab's stock lately? Do you know what he keeps? He has the largest and best selected stock you have ever seen in Marion, will be sold at the following:

Cups and saucers, per set, 25c

Coal oil, the best 150 Ky. test, 10c per gallon.

A low grade Evansville flour, 2c lb.

Our own mill flour for less than you can buy it at the mill. In addition to this flour I will say publicly and positively that I am the sole agent here for the Fredonia flour, and I will sell it for less money than you can buy it at the mill at Fredonia. Country meat I will sell you at 10c per pound for hams, and 8c per pound for side meat. COLUMBUS DAY, OCT. 12.

A Message to the Public Schools of America.

LOCAL OBSERVANCES SUGGESTED.

The Day Should Be Signaled in Every Town and Village in the Republic by a Local Celebration of Which the Public School Is the Center.

To the scholars of the public schools of the United States the executive committee of the Columbian public school celebration sends the following message:

The 12th of October, 1892, the 400th anniversary of the discovery of America, ought to be observed everywhere in America.

The day will be marked in Chicago by the dedication of the Columbian exposition grounds. The day also may be signified in every town and village in the republic by a local celebration of which the public school is the center.

The public schools of the republic will form the most fitting centers for all these local celebrations. A national public school observance simultaneous with the Chicago exercises will awaken a popular interest in the coming exposition. Far more important is the fact that the public school has the right to occupy the most prominent place in the celebration. The public school is the characteristic institution which links all the neighborhoods together, and can thus furnish a common bond for a national celebration. The public school is the ripe fruit of the four centuries of American civilization. The public school of today answers the needs of the future.

How It Came About.

The first approval of this suggestion came from the public school scholars themselves. When the plan was first proposed by The Youth's Companion, January, 1891, thousands of letters were received, testifying to the enthusiasm with which the scholars responded.

The world's congress auxiliary of the Columbian exposition then took up the proposal, calling upon all the people of the republic to observe the day in their own localities, and suggesting that the public schools be everywhere the centers of the celebration.

The superintendents of education were the next to recognize the stress of giving to the public schools the first place in this Columbian anniversary. At their national convention in Brooklyn in February, 1892, they took charge of the movement, and appointed the undersigned an executive committee to lead the schools in their commemoration.

Appeal to the Scholars.

This executive committee now appeals to the scholars themselves to be the first to move. It is for you, scholars of the American public schools, to arouse a sentiment in your schools and in your neighborhoods for this grand way of celebrating the finding of America. Educators and teachers will meet you from their side. But it is for you to begin.

There are 13,000,000 now in the public schools. You have the chance to conduct a patriotic movement which will have a place in history, and will strengthen the republic through the coming century.

What to Do.

The first thing to do is to determine, when you read this message, that you will do all you can to induce your school to enter the celebration. Then show this message to your teachers; every patriotic teacher will be glad to help you if you show your interest. Take the message to the school committee and the superintendent—their consent and aid are indispensable.

After you secure the support of all these, then let the school vote that it will enter the celebration.

The next thing after this public vote will be the appointment of a strong committee made up jointly from citizens, scholars and teachers to take charge. The committee should in all cases consist of those most in earnest, so that the work may not be checked by any possible change of teachers during the summer.

The Programme.

A programme of exercises will be furnished by the executive committee. It will be simple and adapted to any school, yet so arranged that more elaborate exercises may be added whenever desired. The aim of this official programme will be to certain leading exercises may be the same in every school in the republic, and that at least in one feature the Chicago programme and the school programme may be identical.

In due time this executive committee will make further suggestions.

The Local Committee.

The duty of your committee will first be to interest the citizens and to prepare the school. Frequent meetings will be held. The veterans, both north and south, will gladly be recruits for the schools. The other military, civic and religious organizations of each town will lend their aid if they see that the school is determined that the celebration shall be worthy of the day. The local press will be the most valuable of all supports.

On Oct. 12 the star and stripes should be flying from every school house in the republic.

It is the hope of the friends of common school education that not one public school in the United States will allow itself to be left out in this most important celebration.

Executive Committee.

Francis Bellamy, chairman, representing Youth's Companion, Boston.

John W. Dickinson, secretary of Massachusetts board of education.

Thomas B. Shreve, commissioner of public schools of Rhode Island.

W. R. Garrett, superintendent of public instruction of Tennessee.

W. C. Howitt, superintendent of Michigan educational exhibit at World's fair.

CAUGHT WITH \$4,000.

A Bank Thief Is a Bank at Mount Sterling, Ky.

MOUNT Sterling, Ky., May 7.—Friday morning while John Robinson's shoe parade was passing through the city and the cashier sat idly at the bank's door, a deposit bank was taken in a suit, which entered the building from the rear and went into the safe and got \$4,000.

A woman in front of the bank gave a shout, which the clerk, Ray Kerns, caught, and looking around saw a man, Kerns gave the alarm and ran toward him, when a crowd ran after him, and he was caught and taken to the jail.

An officer then ran in and put the thief under arrest. He gave his name as Frank Owens, of Cincinnati. The woman dashed into the crowd and made her escape.

The prisoner was taken before Judge Groves, and, waiving examination, he was held on a bond of \$5,000 to make his appearance in the circuit court, which commences Monday week.

COLUMBUS DAY, OCT. 12.

A Message to the Public Schools of America.

LOCAL OBSERVANCES SUGGESTED.

The day should be observed in every town and village in the Republic by a local celebration of which the public school is the center.

To the scholars of the public schools of the United States the executive committee of the Columbus public school celebration sends the following message:

The 12th of October, 1892, the 400th anniversary of the discovery of America, ought to be observed everywhere in America.

The day will be marked in Chicago by the dedication of the Columbian exposition grounds. The day also may be observed in every town and village in the Republic by a local celebration of which the public school is the center.

The public schools of the Republic will form the most fitting centers for all these local celebrations. A national public school observance, held in connection with the Chicago exercises will awaken a popular interest in the coming exposition. Far more important is the fact that the public school has the right to occupy the most prominent place in the celebration. The public school is the one characteristic institution which links all the neighborhoods together, and can thus furnish a common bond for a national celebration. The public school is the ripe fruit of the four centuries of American civilization. The public school of today sways the hundred years to come.

How It Came About.

The first approval of this suggestion came from the public school scholars themselves. When the plan was proposed by The Youth's Companion, January, 1891, thousands of letters were received, testifying to the enthusiasm with which the scholars responded.

The world's attention, attracted by the proposal, called upon all the people of the Republic to observe the day in their own localities, and suggesting that the public schools be everywhere the centers of the celebration.

The superintendent of education was the next to recognize the fitness of giving to the public schools the first place in this Columbian anniversary. At their national convention in Chicago in February, 1892, they took charge of the movement, and appointed the undersigned an executive committee to lead the schools in their commemoration.

Appeal to the Scholars.

This executive committee now appeals to the scholars themselves to be the first to move. It is for you, scholars of the American public schools, to arouse a sentiment in your schools and in your neighborhoods for this grand day of celebrating the finding of America. Directors and teachers will meet you from their side. But it is for you to begin.

There are 12,000,000 now in the public schools. You have the chance to conduct a patriotic movement which will have a place in history, and will strengthen the Republic through the coming century.

What to do.

The first thing to do is to determine, when you read this message, that you will do all you can to induce your school to enter the celebration. Then show this message to your teachers, every patriotic teacher will be glad to help you if you show yourself in earnest. Take the message to the school committee and the superintendent—their consent and aid are indispensable.

After you secure the support of all these, then let the school vote that it will enter the celebration.

The next thing after this public vote will be the appointment of a national committee made up jointly from citizens, scholars and teachers to take charge. The committee should in all cases consist of those most in earnest, so that the work may not be checked by any possible change of teachers during the summer.

The Programme.

A programme of exercises will be furnished by the executive committee. It will be simple and to the point, so that no school, even the most backward, need feel that more elaborate exercises may be added where desired. The aim of this official programme will be to lead to certain leading exercises may be the same in every school in the Republic, and that at least in one feature the Chicago programme and the school programme may be identical.

In due time this executive committee will make further suggestions.

The Local Committee.

The duty of your committee will first be to interest the citizens and to prepare the school. Processions may be arranged. The veterans, both north and south, will gladly be escorted for the schools. The other military, civic and religious organizations of each town will lead their aid if they see that the schools are determined that the celebration shall be worthy of the day. The local press will be the most valuable of all supports.

On Oct. 12 the stars and stripes should be flying from every school house in the Republic.

It is the hope of the friends of common school education that not one public school in the United States will fail to itself to be left out in this most memorable celebration.

CAUGHT WITH \$4,000.

A Sneak Thief in a Bark at Mount Sterling, Ky.

Mount Sterling, May 7.—Friday morning when John Robinson's show parade was passing through the city and the cashier last called on the Trustee's bank was taking it in a new entered the building from the rear and went into the safe and took \$4,000.

A woman in front of the bank gave a signal, which the clerk, Roy Kertes, caught, and looking around saw a man, Kertes gave the alarm and ran toward him, when a teller, Charles Grubbs, saw and caught him, and took the money.

An officer then ran in and put the thief under arrest. He gave his name as Frank Owens, of Cincinnati. The woman dashed into the crowd and made her escape.

The prisoner was taken before Judge Groves, and, waiving examination, he was held on a bond of \$1,000 to make his appearance in the circuit court, which commences Monday week.

Excitement ran high, and, as he was entering the jail, a crowd ran after him calling for a rope, which made the prisoner tremble like a leaf.
